University of Peace

College of Medicine | Timor

Welcome to Peace University, where your journey to becoming a world-class medical professional begins. Our MBBS program is uniquely designed to mirror the Indian medical curriculum, ensuring a seamless transition for Indian students. With affordable tuition fees, an exceptional faculty team from India, and the opportunity to practice medicine without additional licensure exams, Peace University stands out as a premier destination for medical education. Join us and unlock a future filled with limitless possibilities.

Hands-On Training That Builds Confidence.

State-of-the-Art Facilities

The Immersive Learning Space (ILS) is equipped with a range of resources and immersive technologies that support and enhance your learning experience. Engage with anatomical structures, simulated patients, and clinical scenarios in a safe and intuitive manner.

Internship

Students are required to complete a 12-month rotational internship at UNPAZ's affiliated Guido Valadares National Hospital in Dili, East Timor. During this period, they will undergo rotations across various departments, including ward postings, exposure to HDU and ICU settings, and work in rural health centers. This comprehensive training aims to provide practical, hands-on learning experiences.

Practical Skill Development

The clinical training includes rotations in departments such as emergency, critical care units, wards, and operation theaters. This hands-on experience allows students to work directly with patients and gain exposure to diagnostic services, interpreting results alongside clinical findings.

Advanced Labs. Smarter Learning.

UNPAZ acknowledges the challenges students face, such as peer pressure and lack of guidance. Our expert advisers empower students with essential tools to unlock their full potential and develop their skills. Through concentrated efforts, we ensure students clear FMGE with ease.

Real Patients. Real Experience.

Hands-on live patient training with real-time clinical exposure, guided by experienced doctors to build practical skills and confidence.
